

Full job description CNC H-Mill Operator

AMI Attachments Inc is a rapidly growing heavy equipment attachment manufacturer located just outside of Kitchener/Waterloo. As an industry leader in design and manufacturing, AMI works to create quality, innovative, heavy equipment attachment solutions that are used in construction, mining, demolition, and the oil and gas industries throughout North America.

AMI is looking for an experienced CNC H-Mill Operator

Knowledge, Skills & Experience:

- Previous experience setting up & operating CNC H- Mill machines
- Attention to Detail, ability to read blueprints & drawings
- Overhead Crane experience
- Able to read measuring equipment

Responsibilities:

- Operate & setup mills, lathes
- Load and unload parts to & from machine
- Perform inspections on completed parts

Day shift 7:00 a.m. to 5:00 p.m. Monday to Thursday, Friday 7:00 a.m. to 1:30 p.m.

We look forward to hearing from you! We thank everyone in advance for their interest in working with AMI Attachments; however due to the overwhelming amount of responses we typically receive, only qualified applicants will be contacted.

As an equal opportunity employer, AMI Attachments is committed to providing an inclusive and barrier-free working environment. Please let us know if you require any accommodations during the recruitment process.
