## DEMOLITION & SORTING GRAPPLE

### OUTSTANDING STRENGTH PRECISE CONTROL GREATER PAYLOAD, LOWER FUEL

The versatile demolition and sorting grapple is capable of taking down buildings, moving large volumes of material, and picking through fine recyclables.

- Hardox Wear Plates and Strenx Steel
- Higher Volumes of Material Moved Using Less Fuel
- 360 Degrees Rotation
- Edge-to-Edge Contact
- Reversible Cutting Edges

### DEMOLITION • PRECISE SORTING MASS LOADING • RECYCLING

## DEMOLITION GRAPPLE

### POWERFUL GRIP CRUSHING STRENGTH

Grab hold with the powerful grip and crushing strength of the AMI Demolition Grapple. The low-wear, high-tensile gripping pads on the bypassing tines easily crush and load garbage and construction debris.

### DEMOLITION • CONSTRUCTION CRUSHING & LOADING GARBAGE

# Graptor

**GRAPTOR  
BUCKET**

**GRAPTOR  
ROOT RAKE**

**CONCRETE PULVERIZER**

## CONSTANT GRIP HEAVY DUTY CONSTRUCTION

When you need to pick up large, heavy objects, grab bucketfuls of debris and clear away brush quickly, get a tighter grip on productivity with AMI's Graptor Bucket and Graptor Root Rake. Powered by a helical actuator, the Graptor Bucket and Graptor Root Rake feature incredible holding strength. The built-in rotary actuated thumb gives operators improved flexibility and precision by maintaining constant grip on the load throughout the bucket's entire rotation. Neatly integrated into the top crossbar of the Graptor, the actuator produces over 38,000 foot-pounds of torque at 3,000 psi – putting out the most torque in the most compact design - making the Graptor a powerful tool that keeps a tight handle on heavy, bulky loads.

- Constant Grip Through Entire Rotation
- Helical Actuator
- Serrated Side Bars
- Replaceable Side Cutters

**DEMOLITION • HEAVY LOADING  
PICKING • TRANSFERRING • SORTING**

## FAST CRUSHING NO EXTRA HYDRAULICS WORKS WITH COUPLERS

Built for durable, long-term use, the Kraken Concrete Pulverizer is fully mechanical, made with Hardox wear points and requires no auxiliary hydraulics. Available for use with a coupler or direct pin-on, the Kraken Concrete Pulverizer is ready to claim new ground.

- Flow-Thru Channel Design
- Oversize Hex Torque Tubes
- Serrated Pinch Plates
- 3 Position Brackets
- Optional Rebar Shear

**CONCRETE • PRECAST • SLABS  
WALLS • BRIDGE DECKS • ASPHALT**

# PROGRESSIVE LINK

AMI's Progressive Link Thumb provides more constant pressure throughout the entire cylinder range. The thumb achieves more than 180 degree rotation making it easy to reach and pick up objects that are close to your excavator.

AMI Attachments is a certified member of the Hardox in my Body® program. This strict accreditation means that we provide our customers with buckets manufactured from genuine wear-resistant steel that sets the standard worldwide for being harder, tougher and lighter.

In the quest for stronger and lighter products, AMI Attachments relies on Strenx® high-performance structural steel. Working with Strenx® steel makes our attachments stronger, lighter, safer, more competitive and more sustainable.
