EXCAVATOR & BACKHOE

Graptor

GRAPTOR BUCKET

When you need to pick up large, heavy objects or grab bucketfuls of debris, get a tighter grip on productivity with AMI's Graptor Bucket. The built-in rotary actuated thumb delivers improved flexibility and precision by maintaining constant grip on the load throughout the bucket's entire rotation.

TILT DITCHING BUCKET

The new design of the Tilt Ditching Bucket features a flatter profile, open heel and bigger radius for level grading on uneven terrain. With the versatility of a 45 degree tilt range on each side, you achieve smooth tilting action for an easy, clean finish.

HIGH CAPACITY HEAVY DUTY DIGGING BUCKET

The new design of this Heavy Duty Digging Bucket features a flatter bucket profile for easier filling and releasing of material. The longer lip and floor, combined with the open heel and bigger radius, ensures smooth and efficient loading and unloading cycle after cycle, without material getting packed in and trapped at the back of the bucket.

STICK PIVOT THUMB

The AMI Hydraulic Stick Pivot means the thumb rotates on the same pivot as the original bucket pin. This single pivot point aligns the thumb tip and bucket teeth throughout the entire bucket rotation, ensuring you always have a constant grip on the load.

PROGRESSIVE LINK THUMB

Designed to provide constant pressure throughout the entire cylinder range, the Progressive Link Thumb achieves more than 180 degree rotation to easily reach and pick up objects close to your excavator.

JAWBONE 4-IN-1

When multi-tasking is a must, the AMI Jawbone 4-in-1 Excavator Bucket responds with a multi-purpose design that digs, grades, grips and clamshells.

RIPPER TOOTH

Don't let freezing weather or hard conditions slow you down. The AMI Ripper Tooth is designed for initial breakup of dense, hard-packed material including frozen ground.

ROOT RAKE

The AMI Root Rake is a powerful tool that clears away unwanted roots, limbs and brush while leaving behind valuable soil.

WHEEL LOADER

HIGH DUMP

The High Dump Bucket features a bottom pivot point allowing the operators more bucket clearance when emptying a load.

REMOVABLE GRAPPLE BUCKET

General purpose Wheel Loader Bucket with a removable grapple.

GENERAL PURPOSE BUCKET

To fill quickly, material needs to roll. The slight upward angle on the bucket floor helps lift material easily into the bucket. Smooth curves and open design allow material to empty out efficiently, without packing into tight corners.

GARBAGE GRAPPLE BUCKET

The Garbage Grapple Bucket features large, semi-enclosed grapples that contain and compress small and light material, making it easier to transfer and manage waste without spillage.

WASTE HANDLING

With a bolt-on rubber edge that acts as a squeegee for wet, sloppy material, the Waste Handling Bucket is perfect for waste handling jobs.

PALLET FORK

Add versatility to your loader with the AMI variable width Pallet Fork that locks the tines in place easily.

BACKHOE

4-IN-1 BUCKET

Jack of all trades, the AMI 4-in-1 Bucket gives you the ultimate versatility, handling all the details on your job site. Beyond general purpose, the 4-in-1 is also a push blade, grapple and bottom dump bucket.

SNOW BUCKET

Get big volume and high visibility with the AMI extra-wide Snow Bucket for efficient snow removal.

MECHANICAL BOOM POLE

Add crane versatility to your loader with the Extendible boom pole from AMI.

QUICK COUPLER

The AMI Quick Attach Coupler allows you to make quick attachment changes from the cab instead of the ground. The fully enclosed hydraulics are protected from dirt and debris, preventing wear and tear on the cylinder. Greaseless bushings keep the locking pins lubricated without having to rely on daily maintenance.

SNOW

REACTOR

4-IN-1 REACTOR

The big 4-in-1 Blade for wheel loaders and loader backhoes is a system of four blade positions that give you the tools to clear large areas of snow fast. The endplates are hydraulically-controlled and equipped with industry-proven rotary actuators, giving you rugged and limitless control within the massive 180 degree rotation.

QUICKSAND BROADCAST SPREADERS

Don't let bad winter weather bring you down. Make quick work of spreading sand and salt on icy roads and walkways with the AMI QuickSand. For your Wheel Loader or Loader Backhoe, this versatile broadcast spreader is available in single and double spinner models. Made from galvanized steel, the QuickSand features hydraulic spinners and a floating agitator that prevents clumping and ensures an even distribution pattern.

REACTOR

HYDRAULIC WING BLADE

When it comes to leading-edge versatility during the harshest winter conditions, look no further than the AMI Snowblades' Wheel Loader Hydraulic Wing Blade. Offering exceptional flexibility is the Wing Blade's quick coupler feature for independent coupling of the front angle blade. As an industry first, the quick attach on both the front angle blade and wing blade gives operators the ability to use each attachment together or individually.

KINGSPIN ROTARY SWEEPERS

Show the road who's boss with a KingSpin Hydraulic Rotary Sweeper from AMI Attachments. Ideal for dirt and snow removal on roads, parking lots, intersections and runways, the industrial capabilities of the KingSpin match the challenges of ever-changing road conditions – season after season. The KingSpin features double direct hydraulic drives, heavy-duty swivel caster wheels and 15 degree hydraulic angling in either direction. With four models available, the KingSpin Hydraulic Rotary Sweeper always makes a clean sweep.

COUPLERS

HYDRAULIC PIN GRAB

From the safety of the cab, operators are now more productive using the innovative technology built into AMI Attachments' Hydraulic Couplers. With five integrated safety features and two-stage in-cab controls, you can switch attachments quickly, easily and most importantly, know the coupler is locked on tightly. Improve job site safety and productivity with the AMI Hydraulic Pin Grab Coupler and Power Wedge Coupler.

HYDRAULIC WEDGE

Truly the leader in hydraulic wedge couplers, AMI offers the most innovative design features including compact size (even on full-size excavators) and an exclusive mechanical safety lock like nothing else ever invented.

The wedge coupler system gives you the full power of your excavator without sacrificing break-out force. The unique bucket lugging keeps the pin-to-tip radius exactly to factory specification.

All AMI products come with a 2 Year Limited Warranty
