KICKBOX

OUT, BUT NOT DOWN

- PRECISION LOADING
- MOVE MATERIAL QUICKLY & SAFELY
- SELF CLEANING

Take your productivity up a notch and move material faster with the all-new KickBox – the most efficient ejector bucket for wheel loaders by AMI Attachments. Delivering higher unloading capabilities, along with exceptionally fast cycle times, the AMI KickBox is designed with dual hydraulic cylinders that operate the pivoting push gate. Ideal for grain handling, recycling, top soil, mulch, fertilizer and manure applications, the KickBox delivers precision loading while maintaining absolute control - ensuring the complete load stays intact during transportation and unloading.

**GRAIN HANDLING • RECYCLING
TOP SOIL • MULCH • FERTILIZER • MANURE**

STABLE CENTRE OF GRAVITY

▲ **HIGH DUMP BUCKET**

◀ **GENERAL PURPOSE**

KICKBOX EJECTOR

The AMI KickBox Ejector Bucket gives you the high reach you need without dumping the bucket or shifting the centre of gravity, allowing the operator to release material quickly and back away while the pivoting push gate retracts.

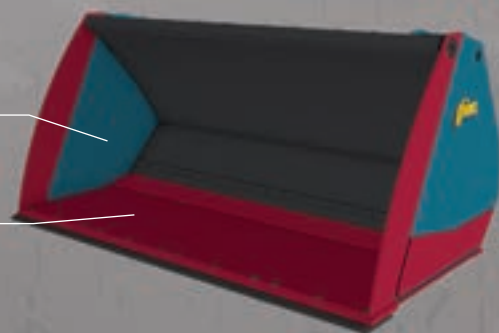

DUAL HYDRAULIC CYLINDERS

Delivering higher unloading capabilities, along with exceptionally fast cycle times, the AMI KickBox is designed with dual hydraulic cylinders that operate the pivoting push gate. In the extended position, the push gate discharges the load out of the bucket quickly.

STRENX®
700

HARDOX®
450

OPEN REAR DESIGN

As a self-cleaning bucket, the load empties completely cycle after cycle – without risk of material getting trapped in the back of the bucket and without needing to shake the bucket clean.

GREASE FITTINGS ON ALL PIVOT POINTS

The AMI KickBox also features grease fittings on all pivot points and protected cylinders outside the ejecting gates.

PIVOTING PUSH GATE

AMI Attachments is a certified member of the Hardox in my Body® program. This strict accreditation means that we provide our customers with buckets manufactured from genuine wear-resistant steel that sets the standard worldwide for being harder, tougher and lighter.

In the quest for stronger and lighter products, AMI Attachments relies on Strenx® high-performance structural steel. Working with Strenx® steel makes our attachments stronger, lighter, safer, more competitive and more sustainable.
