

A TRUE 2-PASS, MADE TO LAST

10-YARD WHEEL LOADER BUCKET

When every cycle counts, get the bucket that maximizes productivity without wasting payload, fuel or time. Designed to hold a true 10-yards heaped, this bucket reduces the passes needed to fill trucks to capacity. Material loads and stacks quickly due to the convex-shaped sidecut profile and deep floor for ideal rollback. Built using Hardox® Wear Plate and Strenx™ Performance Steel, you now have a 10-yard bucket without added weight that lasts longer and has a predictable wear life. Don't let opportunity pass you by, contact AMI Attachments today.

Hardox wear steel provides a unique combination of hardness & toughness, resulting in first-class products.

Strenx performance steel combines strong steel with thinner dimensions for a more sustainable life.
