

AMI TILT BUCKET POWERED BY RAMCAM®

www.amiattachments.com

THE TILT BUCKET WITH EVERY ANGLE COVERED

AMI Attachment's Tilt Bucket Powered by RAMCAM® - the ultimate heavy-duty attachment designed to conquer any task with ease. This rugged and powerful tilt bucket is built to last, providing reliability in demanding conditions.

Equipped with RAMCAM® technology, the hydraulic cylinders are fully protected with minimal hose exposure, reducing damage and downtime. No more broken cylinders from rock obstruction, interference from material build-up, or frozen dirt on bucket's mechanical components.

The Tilt Bucket powered by RAMCAM® is the first Tilt Bucket that's got every angle covered. Patent Pending.

Designed by the engineering team at AMI Attachments, RAMCAM® is a revolutionary new drivetrain that allows for mechanical rotation using hydraulic cylinders within a protective casing.

The Tilt Bucket powered by RAMCAM® provides all the advantages you expect in a tilting bucket - only now cleaner, sleeker and ready for any condition.

PATENT PENDING

SPLINED PIN

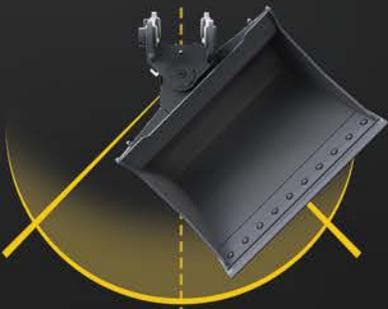

More than just a pivot point, RAMCAM® features a splined pin that stays securely in place. As the hydraulic cylinders push against the lobes, the torque is transferred to the splines providing rigidity and strength.

GREASE BANK

With all the grease points now protected, the Tilt Bucket powered by RAMCAM® features a grease bank for simple and routine maintenance.

FEATURES

45°

45°

90° ROTATION

With 90-degree tilt, the RAMCAM® drivetrain delivers the same tilt range as AMI Attachments' conventional tilt bucket.

TAPERED SIDEWALLS

Along with a replaceable bolt-on cutting edge, the bucket includes tapered sidewalls, reducing friction between material and bucket when unloading.

DUAL RADIUS HEEL

The heel profile incorporates a dual radius contour, minimizing surface contact while curling.

AMI Attachments is a certified member of the Hardox in my Body® program. This strict accreditation means that we provide our customers with buckets manufactured from genuine wear-resistant steel that sets the standard worldwide for being harder, tougher and lighter.

In the quest for stronger and lighter products, AMI Attachments relies on Strenx® high-performance structural steel. Working with Strenx® steel makes our attachments stronger, lighter, safer, more competitive and more sustainable.
